The Durham depot controversy has been settled, at last. The depot will be built, at a cost of $36,000. Let us all rejoice.

In Pennsylvania a man by the name of Moon is a candidate for Congress. However, it is not thought he will get full until after election.

It is now said the President has felt constrained to notice the Hulda Todd incident in Delaware, and will probably cause the restoration of that lady to her little postoffice.

Extra trains are running to bring cotton to the coast in certain parts of Africa. High prices for raw materials stimulate the sending to market of every available pound which can be discovered by ransacking all possible sources of supply. The cotton corner will inevitably collapse.

The Atlanta *Journal* offers a crumb of comfort to "red-headed" folks. That paper says: "Time was when red hair was regarded almost in the light of a deformity. To be red-headed, especially in the case of a girl, was to be an object of pity at the hands of persons fortunate enough to possess brown, black, or even corn-colored locks. That time is no more. The fashionable shade for hair just at present is red—the redder the better."

PORT'S FIRST COTTON CARGO.

Steamer Axminister Cleared Yesterday for Bremen—Receipts of the Staple. Shipping and Market Notes.

The first cotton cargo of the season for foreign export was cleared yesterday by Messrs. Alexander Sprunt & Son for Bremen, Germany. It was aboard the British steamer "Axminster," Capt. Spinks, and consisted of 5,967 bales, 3,128,191 pounds, valued at $391,023.87. Compared with those of other vessels which are engaged regularly in the cotton trade at this port, the cargo is very small, but the casual observer is at once impressed with the value of the same. For a number of years the staple has brought from four to eight cents per pound, but this season ten and eleven cents are about average prices and the difference is very perceptible where five or six thousand bales are taken into account. The "Axminster" cleared yesterday morning and passed out to sea from Southport at 2:50 o'clock in the afternoon.

The big two-thousand ton steamer "Tolosa," Capt. C. H. Holtum, is the only vessel now in port, and she expects to complete her cargo by the last of the week. The receipts of cotton at the port are now growing very heavy and the compresses are "on the move." Yesterday 4,100 bales were received, the receipts for the first time this season having been heavier for a single day than last season. Most of the staple came yesterday from points on the W., C. & A. railroad. The local market remains about the same.

The schooner "Sylvia C. Hall." 285 tons, Capt. Wm. J. Falkenburg, who is well known here, arrived yesterday from New York, with five tons of gun powder for J. W. Murchison & Co., and balance cargo of salt for Hall & Pearsall, Incorporated. When she completes discharging she will proceed to Brunswick, Ga., for cargo of lumber.

There was nothing doing on the spirits turpentine market yesterday and all other naval stores remained unchanged. The receipts are generally light.

The Clyde Liner "Carib," Capt. Chichester, arrived in port yesterday from New York with a good passenger list.

LOCAL DOTS.

— The plumbers of Wilmington will meet this evening for the purpose of organizing a plumbers' union.

— Capt. J. W. Harper announces that on and after this date the steamer "Wilmington" will begin her regular Winter schedule.

— The hundred odd hydrants of the Clarendon Water Works Co. were flushed out under the direction of Superintendent Robertson last night.

— Rachel Revels, colored, was committed to jail by Justice Fowler yesterday in default of bond for the Superior Court, where she will be called to answer the charge of an assault with a knife upon Martha Ward.

— A competitive examination under the rules of the U. S. Civil Service Comission for the grades of clerk and carrier in the Classified Postoffice service in this city will be held in the U. S. court room here on Nov. 18th, 1903. Applications should be filed before Oct. 19th.

"THELMA" SATURDAY NIGHT.

Chas. W. Chase's Dramatization of Marie Corelli's Beautiful Story.

"Thelma" will be seen at the Academy Saturday night and will be interpreted by a company said to be most efficient. This is one of Marie Corelli's most intense stories of weird interest and strange characters. It deals with the days of the Vikings, the golden haired, blue eyed people of the North. It's dressing and stage pictures are true to the era of the play, which is one abounding in the picturesque. It is a leaf from the past, and tells of the strenuous lives of the hardy people from whom its characters were culled. No story of this great writer of the weird and mysterious has ever been more enjoyably interesting in book form, and no dramatic author has better attuned his play to popular fancy than has Chas. W. Chase in putting this story on the stage. A capable and thoroughly efficient cast is promised.

The advance sale of seats will commence at Plummer's Friday morning. Regular prices will prevail.

Excursionist Stabbed to Death.

A negro who came to Wilmington Monday on the Conway excursion was stabbed to death at Cerro Gordo, Columbus county, soon after he stepped off the train there very early yesterday morning. The negro's body was left by the side of the track and railway officials here were notified of the killing.

MUNICIPAL AFFAIRS.

Board of Audit and Finance Approved Market Appropriations by Aldermen.

THE STREET PAVING BIDS.

Proposals Opened Yesterday Afternoon by the Committee and Award of Contract Deferred—Bond for Lighting Contract Given.

The regular monthly meeting of the Board of Audit and Finance of the city, and a called meeting of the Streets and Wharves Committee of the Board of Aldermen, were held yesterday afternoon at the City Hall. At the first named the usual bills for current expenses were examined and approved, and two or three minor appropriations by the Board of Aldermen were concurred in. At the last named meeting, proposals for the Market street paving were opened in the presence of bidders and the award of a contract was deferred for further consideration.

The Board of Audit and Finance met as usual at 3:30 o'clock, Chairman H. C. McQueen presiding and Messrs. J. A. Orrell and S. P. McNair in attendance as members. There were also present Chairman M. G. Tiencken, of the Market Committee, and Chairman Z. E. Murrell, of the Public Building Committee, of the Board of Aldermen. The two last mentioned were before the Board to urge concurrence in the appropriations by the Aldermen of $100 for furnishing metallic covered benches for the sale of shad and other fish at Front street market, and $250 for removing the Fifth Ward Hook and Ladder hall to the present site of Fifth Ward market house at southwest corner of Fifth and Castle streets. Both appropriations were concurred in and the committees will at once proceed with the work under their respective departments.

The removal of the hook and ladder hall to the site of the present Fifth Ward market house, which is no longer fit for occupancy, will be only a question of about 50 feet, as the hall is adjoining the present market house, fronting on Fifth street. The idea of the removal was original with Mr. Tiencken who has long contended for better market facilities for the people in that section of the city. Mr. Murrell, as chairman of the building committee, is co-operating with Mr. Tiencken and will see that the new place is in every way suitable to the needs of a market. The first floor only will be used for rent and the second floor will be used as a hall for meeting purposes, etc. as now.

The other business, out of the routine, transacted by the board yesterday afternoon was approval of the bond of the C. R., L. & P. Co. for lighting the city, in the sum of $5,000, with Mr. R. J. Jones as surety. The contract with the Gamewell Fire Alarm Telegraph Co. for furnishing the city with the new battery system was continued for the correction of a few technicalities in the same.

Streets and Wharves Committee.

The meeting of the Streets and Wharves Committee was held at 6 o'clock in the Mayor's office. Those present were Mayor Springer and Aldermen Sweeney and W. H. Yopp, of the committee; Mr. Warren G. Elliott, Jr., of the Coal, Cement & Supply Co.; Mr. Roger Moore, Capt. E. G. Parmele and Mr. P. Q. Moore.

There were three bidders for the Market street paving from Second to Fourth street, each of whom accompanied his proposal with a certified check covering 5 per cent. of the amount of his bid.

Mr. Roger Moore offered to do the paving with the Mack Vitrified Fire Clay Block for $2.37 per square yard or with the Georgia Vitrified Shale Block for $1.87 per square yard.

The Coal Cement & Supply Co. submitted six propositions upon the basis of so much per square yard as follows: Mack Clay Block, $2.17½; Vitrified Brick, as per sample, $2.15; Georgia Vitrified Shale Block, $1.81½; Granite blocks, as per samples, D. and E., $2.31 and $2.38, respectively; Asphaltum Blocks, as per samples, $2.25.

The Southern Paving & Construction Co., of Chattanooga, which recently paved Princess, between Front and Second streets, and lower Market street, with the Reynold Block, submitted by telegraph a bid of $1.84 per block, standard vitrified brick to be used.

Another September Wedding.

The following invitations were received with much interest and pleasure by friends in the city yesterday: "Mr. and Mrs. Joshua Smith request the honor of your presence at the marriage of their daughter, Maggie Smith, to Patrick Henry Sears, on Wednesday, September thirtieth, at eight o'clock, P. M., Methodist Episcopal Church, Whiteville, North Carolina." Mr. Sears was formerly of this city and has hundreds of friends here who will congratulate him upon the approaching happy event in his life.

New Street Sweeper.

The new street sweeper arrived yesterday on the New York steamer and was given a practical test by the Streets and Wharves Committee yesterday afternoon and again last night. Alderman Sweeney has not yet made good his promise to take his colleagues for a spin around the city on the machine but when they do have an opportunity of seeing it work, they will find it a great labor saver and a clean trash remover.

PRETTY CELEBRATION OF WEDDING ANNIVERSARY.

Mr. and Mrs. T. H. Thompson Delightfully Entertained at Their Home on Seventh Street Last Night.

The pretty home of Mr. and Mrs. T. H. Thompson, No. 320 North Seventh street, was thronged yesterday evening with a gay and fashionable assemblage of guests, the occasion having been a beautiful reception in honor of the fifteenth anniversary of the marriage, or crystal wedding, of the delightful host and hostess. Unaffected hospitality and the resulting pleasure for each and every guest abounded. Mr. and Mrs. Thompson received the happiest congratulations and best wishes upon the happy event in their lives, and as a token of the genuine regard in which they are held, very many handsome and costly presents were received.

The residence was beautifully lighted and from the broad verandas were suspended many Japanese lanterns, lending especial charm to the general effect. The interior decorations, executed by Rehder, were elaborate and very pleasing. The parlors, reception room, halls and dining room of the pretty home were made lovely by everything known to the florist's art. In the parlors the mantels were banked with palms, and a neat arrangement of vases filled with pink roses and pink carnations entered into beautiful combination. In the reception room the piano and mantel—were banked with sword ferns and yellow roses. The dining room, where elegant refreshments were served, was also beautiful with an arrangement of plants and flowers, the table decorations being especially pretty. The hall and stair case were draped with smilax and a number of stately palms at advantageous places added greatly to the splendid effect.

Mr. and Mrs. Thompson were assisted in receiving by their sister, Mrs. J. O. Castleberry, of Atlanta; Mrs. W. E. Perdew, Miss Minnie Perdew and Miss Nora Scott. Mrs. Thompson wore pastelle green silk; Mrs. Castleberry, blue crepe de chene, while other members of the party were charmingly gowned in white. Mrs. R. H. Pickett presided at the punch bowl and Mrs. W. W. Hodges graciously had charge of the refreshments.

Delightful music was furnished during the evening by Hollowbush's Orchestra with Mrs. E. H. Munson at the piano. There was also a programme of vocal music and recitations participated in by Miss Emma Thomas, of Baltimore; Mrs. B. C. Moore, Mrs. C. D. Weeks and Miss Nora Scott, of Wilmington. That feature of the entertainment was especially enjoyable and contributed largely to the pleasure of those present.

OFFENDERS IN MUNICIPAL COURT.

Mayor Springer Sent Excursionists to the Roads—Other Cases Yesterday.

Yesterday was excursion day in the municipal court. Mayor Springer had before him the unruly members of the party who came Monday and kept the police on the go until they left that night. Oscar Brown, white, of Columbus county, who engaged in a fight near Second and Princess streets and violently objected to arrest when Police Capt Williams laid hands upon him, was tried first for an affray and fined $10 and costs. Subsequently, he was given preliminary trial upon the charge of carrying a concealed weapon, and was found over to the Superior Court. A pistol and enough cartridges to storm a small-sized fort were taken off his person when he was arrested. In default of payment of the fine upon him for an affray, he was taken out to the county roads for 30 days yesterday afternoon.

Ed Brewer, the young white man charged with drunkenness and disorderly conduct, was fined $20 and in default of same he also went to the roads for the regulation term of 30 days.

Montgomery Bachelor, another of the excursionists who was riotous in his conduct during his brief stay in the city, was also sent to the roads in default of payment of fine. In the other cases yesterday the charges were principally drunk and down and the defendants were let off upon payment of fines of $5 and costs. Geo. Hanes, a colored excursionist, who was arrested for carrying a pistol, was not tried owing to the absence of a witness.

F. D. CUDLIPP DEAD.

Superintendent of Telegraph for Atlantic Coast Line and Esteemed Citizen.

DIED RATHER SUDDENLY.

Was Confined to His Home Only Part of a Day—Wife and Daughter Visiting in the West When the End Came—Native of Virginia.

Mr. Frederick D. Cudlipp, superintendent of telegraph of the Atlantic Coast Line Railroad Company, and a gentleman well known and highly esteemed over the entire system, died rather suddenly last night at 11:25 o'clock at his home in this city, No. 313 Grace street. Mr. Cudlipp had been unwell for some time, but not until yesterday was his condition regarded as serious. Upon the advice of his physician he confined himself to his room yesterday morning and last night he grew gradually worse until the end came just before the midnight hour. He was conscious until ten minutes before he died. There were at his bedside when he passed away Drs. Thomas and Bulluck and Messrs. J. C. Higgins, of the A. C. L., and W. G. Sale, manager of the Western Union office in this city, who ministered to the suffering of the dying man as best they could.

Unfortunately Mrs. Cudlipp and daughter are visiting in Mapleton, Iowa, and could not be reached by telegraph in time to be informed of the death last night. During their absence Mrs. John Frank, a personal friend of the family, kept house and cared for two little sons of Mr. Cudlipp, who remained with their father while their mother was away.

Mr. Cudlipp was a native of Virginia and was about 54 years of age. He was one of the most experienced men in the telegraph service in the South and for a long time was chief operator of the Western Union in Richmond. Upon the consolidation of the Atlantic Coast Line and the Plant System a little more than a year ago, he was elected to the position of superintendent of telegraph and was given jurisdiction over both divisions. He was a man of fine character, genial disposition and kindly spirit. Some twelve or fifteen years ago he was manager of the Western Union in this city but remained here only a short time. During his late residence in Wilmington he had made many friends and was held in the highest esteem by the company of which he was an official.

Mr. Cudlipp is survived by his wife and three children—Mrs. Cudlipp and daughter, who are visiting in Iowa, as stated and the two boys, who were here. The family have the sympathy of the community in their sad bereavement. The funeral arrangements will be announced later.

He had a conference yesterday with President Taylor, of the Wilmington Chamber of Commerce.

BURNED BY SULPHURIC ACID.

Tank Burst as It Was Being Loaded on Dray—Two Negroes and White Boy Injured.

While rolling an iron tank containing 100 gallons of sulphuric acid upon a dray near foot of Princess streets yesterday morning about 10 o'clock, the horse attached to the dray stepped forward a pace and the vessel dropped to the ground, bursting and severely burning Jno. Bryan and Jim Wilson, colored, and Frank Simmons the little nephew of Mr. J. L. Russ, No. 312 Chesnut street, who was looking on while the dray was being loaded. Jim Marshburn, the negro who owned the dray, escaped without injury. The tank was brought down from the Navassa factory on a lighter and the dray had been engaged to haul it to the American Chemical and Textile Coloring Co.'s works on Queen street.

The burned negroes and the little Simmons boy were given every relief in Mr. C. D. Maffitt's store to which they were taken and Dr. Andrew H. Harriss later attended them. Bryan is porter in Mr. Maffitt's store and was worst injured. He was sent to the hospital.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

WEDNESDAY MORNING, SEPT. 16.

THE FINANCIAL OUTLOOK.

As the time is now at hand when there is the annual drain of money from the great money centers in the East to the West and South for moving crops, the financial problem is again coming to the front as an important issue. With business still as active as ever, and with trade and industry constantly expanding, there is a reasonable prospect that with the prevalence of the same general conditions as last year, the same high rates for money and the same stringency will be experienced. Already the movement of money to the interior has set in at New York, although as yet it has not assumed proportions sufficiently large to disturb money rates.

In former times it was the custom of the Treasury to come to the relief of the market by purchasing bonds, thus putting into general circulation a considerable amount of money locked up in the National Treasury in the shape of surplus. Owing to the high prices asked for such bonds as the Secretary of the Treasury is still able to purchase, but little relief is possible to the money market from that source, hence the Secretary has been compelled to resort to other means of relieving the money market and putting again into circulation some of the funds tied up in the Treasury vaults.

Last year Secretary Shaw first increased the deposits with National bank depositories to the full limit of his ability under the old construction of the law, which required deposits of Government bonds as security for such deposits. Owing to the high price of Government securities, there was a limit to the ability of the banks to qualify for deposits of public money. To meet this situation the Secretary first permitted those banks that already held deposits against the securities represented by Government bonds to increase their deposits of Government funds by depositing other than Government bonds as security, and later he also relieved banks of the necessity of retaining 25 per cent. cash against Government securities.

Realizing that the coming Winter will in all probability see a repetition of the same conditions that prevailed a year ago, as the circumstances have in no sense changed, the Treasury Department has deemed it wise to announce that it is within the power of the Secretary to increase the deposits of Government funds with National banks to the extent of $40,000,000. As is well known, Secretary Shaw is not disposed to assist the merely speculative interest of Wall Street. It is the commercial and agricultural demand for money which he has in mind, and he can be counted on to use the discretion vested in him by law to so deposit the money he will have available as to do the most good to business and agricultural interests.

Secretary Shaw's announcement of his ability to come to the assistance of the money market has already had a beneficial sentimental effect by removing the fear of any serious stringency. The New York banks are in a position now to make time loans with more confidence, as they have specific assurances that in the event of need the Treasury will come promptly to the aid of the market.

This assurance from the Treasury Department is the more welcome, as the sudden advance in the Bank of England rate makes it apparent that not much relief is to be looked for in the shape of foreign loans. While the action of the Bank of England probably had no reference to the American money market, the general effect is to close the avenue of foreign financial assistance in the event of stringency such as was experienced last year.—*New Orleans Picayune.*

EXTRAVAGANCE AT FUNERALS.

The fact that Lord Salisbury provided in his will that not more than $100 should be spent on his funeral has been the subject of a great deal of comment. Although one of the greatest noblemen of Great Britain, the second in rank, and having the pride of the very proud family to which he belonged abnormally developed, he disliked anything like display.

His funeral cost only about $70. In this country there are few funerals, even among the poorer people that cost as little as that. The desire seems to be to make a showing of some degree of wealth, whether any is possessed by the bereaved family or not.

And this is not because the family desires to manifest its affection for the dead by fine funeral, but because it has become a custom for families to make as good a display as possible on such occasions.

It is all right enough of course for those who can afford the expenses to make a display that will attract the attention of the friends who attend the funeral ceremonies and also the street observers, but in a vast number of instances money is spent that is actually needed by the bereaved family to obtain the comforts of life. In order to have a fine funeral it is often the case that a family will spend the money that it needs for the next month's rent of the house in which it lives. It will go without needed articles of clothing and food for days and weeks in order to have the funeral for its departed member commented upon favorably by its neighbors.

Of course reference is had to funerals in cities. The desire to gratify pride of this kind does not exist in the country to a very great extent, but it does exist, and is becoming more and more noticeable.

It is regrettable that there isn't a general effort to put a stop to extravagance at funerals. The money that is wasted in this way could be used to so much better advantage in bereaved homes in other ways that it would seem as if the pulpit especially would use its influence in favor of economy and simplicity.

Perhaps if the rich would lead the way those having but little of this world's good would follow their example. No doubt Lord Salisbury had in mind the custom of the poor people within the sphere of his influence, when he wrote in his will that his funeral should not cost more than $100, to go into debt far beyond their immediate means to pay in making a display at funerals. In this country many a family would be more comfortable if simplicity and economy instead of extravagance were the rule on these sad and solemn occasions.—*Savannah News.*

CURRENT COMMENT.

—— The Turkish affair is tiresome now, but the situation will be worse when Consul Magelssen begins to write articles for the magazines on "How I Was Not Assassinated."—*Atchison Globe.*

—— Bishop Candler's words should have much influence for good wherever men are thinking about the evils of lynch law. His standing as a cleric and as an educator is high, and what he says will strengthen the resolution of men in office charged with the execution of the laws of the land. He sees clearly on the main point, and expresses himself with refreshing vigor.—*Washington Star, Ind.*

—— Enthusiasts on the subject of the elevation of the negro assert that the race problem is to be solved in the public schools; that if the black children are given the proper mental training they will develop into good citizens, worthy of political equality with the white. That is the view of those who have no practical knowledge of the race, who study the problem at long range, who are strong on theories and assumption, but woefully weak on the facts.—*Baltimore Sun, Dem.*

—— The little "irregularities," as Mr. Payne termed them, in the Postoffice Department are very serious now. You may know that the situation is bad when the highest Republican machine politicians are unable to shield their friends. This is evidence that it is so bad that the administration realizes that vigorous action must be taken or the opposition party will have a winning issue, for the facts evidently are there and if one side does not make the exposure the other side will. A few of the lesser lights, no matter how brilliant and faithful, must be sacrificed for the general party good lest the cry, "Turn the rascals out," sweep the whole aggregation away.—*Columbia (S. C.) State, Dem.*

What Is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly re-adjusts this. It's gentle, yet thorough. Only 25c, at R. Special Train To Newbern.

Thos. H. Knight will operate a special train to Newbern, the city of hospitality and good cheer, on Sunday October 4th, over the fast and elegant Atlantic Coast Line, in splendid cars, thus giving one more and the last chance this season, to visit the generous and big hearted people whose warmth of welcome so many of us feel. If there is a place on earth in which you are made to feel you are welcome, it is there. Everything will be done for the comfort and conveniences of those who go. Nobody ever regrets a visit to Newbern. There will be separate cars for white and colored people. Train leaves Wilmington at 7:30 in the morning, and will leave Newbern on the return trip at 9:00 P. M. The fare is only $1.00 for the round trip. †

— Morehead *Coaster*: A shadding crew from Beaufort ran across a school of mullets Wednesday and pursued them, making a $600.00 haul. The fine for pursuing mullets is $500, but we suppose they can pay it and have a good pile left.

— Lumberton *Argus*: Mr. E. C. Floyd, near Barnesville, is said to have killed a cotton-mouth snake the other day which contained 51 young ones, in length from ten to fifteen inches, which had taken refuge in the body of the mother.

— Mr. M. S. Hackney is now at death's door as a result of being thrown from a buggy by a runaway horse in Durham. He was hurt about 2 o'clock Monday and since that time he has been unconscious. His condition is extremely serious.

— Wilkesboro *Chronicle*: The wife of Nelson Handy, of Ashe, is dead. They recently moved from this county to Ashe. A few months ago this same Handy was put in jail here for cruelly beating his wife. She came and got him out of jail; they went to Ashe; she is dead; he is gone; and the suspicion is that he beat her to death.

— Sanford *Express*: The Cape Fear Electric Power Company expect to have from 350 to 400 men at work on their plant at Buckhorn Shoals by the middle of this month. Thirty horses and wagons and forty men were carried up there from Fayetteville the first of the week to work. It is hoped to have the plant ready to be put in operation within six months.

— Swansboro Cor. Newbern *Journal*: Our townsman, M. Russell, has a Keifer pear tree in his garden lot, that is a curiosity to look at. The tree is not large, but has some two hundred large pears on it. The limbs are broken down after being propped up all round. One limb about three feet long, we counted 21 large pears.

— Kinston *Fress Press*: Mr. J. W. Hood, of Jones county, reports a very fine yield of corn on his farm. He says that he has about 10 acres of land planted in an improved corn from which he expects to make some 15 or 20 barrels per acre. Several of the stalks bear six ears a piece and some bear nine ears a piece. The general run is from two to nine ears.

— Goldsboro special to Raleigh *Post*: A. C. Finch, a young man who claims to hail from South Carolina and who has been at work with the Goldsboro furniture factory and stopping at the Perkins House in this city, is accused of breaking into the trunk of Willie Perkins Saturday night and stealing a suit of clothes, seven dollars, a pistol and several other articles of value. Finch is under arrest.

— Duplin *Journal*: "Hell swamp," "Calico Bay," "Purgatory," "Thicken," "Snatchet," "The Boneyard," etc., are names of places and sections one hears mentioned of here in the state of Duplin now and then. "Purgatory" was once the name of a post office, but it is now changed to "Flox." It is said that one had to pass right through both "Snatchet" and "Hell Swamp" to get to "Purgatory" from Kenansville, while it was a post office.

— Newton *News*: Last week in the northern part of town the little son of a Mr. Childers was bringing the cow home from the pasture. He foolishly put the rope around his neck and the cow, getting frightened at some object in the road, ran towards home, dragging the child behind. He was dragged 200 yards over rocks and ditches. When the cow got in the yard she plunged over the wood pile, carrying the boy with her. The child was nearly killed; all his clothing was stripped from his body and he was cut and bruised from head to foot.

"D. D. D.," the astonishingly effective new

Skin disease prescription

Eczema, Salt Rheum, Barbers' Itch, Erysipelas—all eruptions, scaly diseases and parasitic affections of the skin positively cleared away in a hurry. A clean, pleasant liquid (non-greasy) externally applied—sponged or sopped over the parts. Instantly stops all irritation. Soon clears out absolutely all affected conditions.

(Here is a case cleared away with two bottles.)

(Case of daughter of Mr. Mose Hartman, permanently cured of a bad skin disease after two bottles only of this D. D. D. prescription.)

I vouch for these facts.

They have been proven to me beyond the possibility of doubt.

ROBERT R. BELLAMY, Druggist.

Some weeks ago the astonishing record of this prescription—proven to me by indisputable evidence—induced me to give it my unqualified recommendation to the public. Since then D. D. D. has cured so many who obtained it from me that its record with me has been fully equal to its previous history. I have not seen a single instance of disappointment. It seems to do the work every time. In nine cases out of ten, manifestations on the skin are *skin* diseases—not blood diseases. Many purchasers formerly miserable, thinking they had a bad blood disease, have found it was merely a skin affection and have cleared it all away with this prescription.

Among all the known reliable specific medical influences for different ailments I know of very few discoveries so certain in effect as this D. D. D. prescription in its quick conquest of skin diseases of all kinds.

A FEW CURES OF WELL-KNOWN PARTIES.

Chicago, April 7, 1903.

"About six months ago my daughter began getting sores all over her body and was gradually getting worse. Nothing seemed to do her any good, although we tried different medicines but without success. She would scratch continually and was a sight to look at. I was asked to try a bottle of your D. D. D. remedy, which I did, and to my surprise it worked wonders on her the second day, and before the bottle was empty she was almost cured. The second bottle completely cured her. I will highly recommend your remedy to any one suffering with skin disease; the fact is I cannot say enough for it."

Wishing you every success I am, yours very truly,
F. KLINKHAMER, 2201 Fillmore Street.

"I am glad to say that the bottle of medicine furnished by you in July last has been of great benefit to me. I am now free from the annoyance heretofore suffered from Eczema on my ankles. I have also cured a friend of mine who had two or three spots on his face." W. J. FOOTNER, St. Paul, Minn.
Vice President and General Manager of Great Northern Express Co.

"That wonderful discovery, the D. D. D. remedy, cured me of a bad case of Eczema of long standing, which the physicians could not cure. I cheerfully recommend it to all persons afflicted with any kind of Skin Disease." C. R. WOODWARD.
(Ex-Mayor), Cairo, Ill.

"I have been troubled for years with Eczema of the skin and tried a great variety of remedies and cures, with no apparent relief. Doctors were unable to benefit me in any way. A friend of mine gave me a bottle of your D. D. D. remedy to try. Before the contents of the first bottle were consumed I am glad to say your remedy had proved entirely satisfactory and had cured me.

I take great pleasure in recommending it to all and everyone suffering from any disease of the skin."
Sincerely yours, JOHN D. BAGGOT,
(A well-known Chicago business man.)

"The D. D. D. remedy cured me of Lichen-Ruber in two weeks. I had bathed and treated at Hot Springs, Ark., for six weeks. The hot waters irritated me and made me worse. My body was covered with eruption from head to foot."
GEO. GEBERT, No. 256 43rd St., Chicago.

Chicago, April 6, 1903.

I got some kind of a skin disease in a barber shop and I tried a half bottle of your D. D. D. Remedy and I must say it cleared my skin fine. I asked the druggist for a salve and he says the D. D. D. would be the best thing for me. I thought the price was a little too much, but if I ever have any kind of a skin disease again I am willing to pay ten times as much. I think it the best remedy in the world for any kind of a skin disease. Yours truly, FRANK W. KOLLE,
34 West Irving Park Boulevard, Chicago.

The preparation is being used by most of the skin specialists. It is compounded for druggists solely by the D. D. D. Company, 70 Dearborn Street, Chicago.

It is utilized by every general family physician who has taken the trouble to investigate the work it is accomplishing.

It is used in the Cook County Hospital, Chicago.

It will clear off any parasitic break in the skin in from 3 days' to 60 days' time.

If you have a skin disease visit the above agents and see proofs that will make you a happier human being.

$1.00 buys this prescription—already made up in sealed bottles—with authentic label on each. The above concern will fill mail orders on receipt of price.

THE FISHER MARTEN.

Conceited, Cunning and Intelligent and Without Fear.

The fisher marten deserves to be much better known than he generally is, if only on account of his own good opinion of himself, his wonderful cunning and shrewd intelligence.

One of the largest and handsomest of the martens, he has also agility, strength and endurance for any two of his kind put together. Measuring about three feet in length, with a slim, vigorous body, the fisher will travel enormous distances in a single night, bounding lightly up into the air, with his nose turned up in order to catch every whiff of scent, outwitting other animals and the cleverest trappers and making himself at home wherever he happens to find himself.

He generally chooses as his hunting grounds the thickly covered hills and ridges where the hemlock and spruce grow in abundance, but he is as much at home on the tree tops as on the ground and can sleep as soundly in a low hollow of a tree as on a branch of a fir tree, where he will lie stretched out in the sunshine like any old cat.

As for fear, he does not know what it is. He will not only face but actually kill a Canadian porcupine and does not even appear to mind the quills which penetrate his body. He is not particularly fond of meeting an old bear with cubs, but is generally clever enough to steal her cubs while she goes off on some little expedition of her own, while instances have been related of the fishers in the Rocky mountains even killing young grizzlies.

As for man, he appears to laugh at him and his designs for trapping wild animals. He will pull a marten trap open and take out the bait, whether alive or dead; he will tear a pine marten or mink to pieces in no time and carry it off or drag the trap over some rough projection in order to spring it and make off more often than not without having received as much as a scratch.

But perhaps his cleverest trick, when he finds a trapper is following his trail, is to get behind the trapper and follow his, so that while the unconscious trapper is walking after the fisher the fisher is keeping completely out of danger by following the trapper. Many a useless mile has the trapper walked in this manner, and many good baits has he lost by the very same shrewd, cunning animal he is trying to trace and catch.—*Collier's Weekly.*

The Ubiquitous Mosquito.

The mosquito wanders pretty much all over the world, and is found from the tropics to Lapland, where it is also a great pest. So numerous are mosquitoes in some localities in South America that the wretched inhabitants sleep with their bodies covered over with sand three or four inches deep, the head only being left out, which they cover with a handkerchief. Even thick clothes afford at best a very partial protection, being readily penetrated by the probescis.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, Sept. 15.—The cotton market opened barely steady at an advance of eleven points to a decline of three points, February and March being the only options lower. The advances were due to a renewal of bull support and covering following the higher English spot market where prices were marked up another fourteen points and the relative firmness of September in that market which advanced beyond local expectations while the later positions were hardly as high as had been considered due on the New York closing of the previous day. September here came in for the most aggressive support and sold as high as 11.30 on the call, while October reached 10.10, December 9.99 and January 9.77. Almost immediately, however, selling orders came hurrying in as a result of a disappointment, as a swing in the weather map which had been expected to reflect no little damage from the Southern storm. This, however, appeared to have spent its force in Florida and to have developed into nothing more serious than "good soaking rains" by the time it reached the central belt. These were thought to be of more benefit to cotton than harm, and brought about active selling for both accounts, under which prices reached a level some seven to nine points below yesterday's final. Then it was noted that the forecast called for cooler weather with frost predicted in portions of Texas, and outside selling orders subsided, the room turned for covering and prices underwent a partial rally. The betterment was short lived notwithstanding the fact that the regular weekly report of the Weather Bureau proved even more bullish than had been looked for and during the afternoon the market ruled generally weak, reaching the lowest point of the session under active liquidation and selling for short account. September sold as low as 10.93, October reached 9.86, while December touched 9.79 and January 9.77. Just before the close demand became slightly better on the reaction theory and September rallied a few points, closing at 11.01, Generally speaking, however, prices were finally at the low point with the market steady at a net loss of sixteen to twenty points. Sales estimated at 600,000 bales. Receipts at the ports today were 26,077 bales, and the weekly crop report said picking was progressing rapidly.

Costs Only 25 cents at Druggists,

Or mail 25 cents to C. J. MOFFETT, M. D., ST. LOUIS, MO.

Cures Cholera-Infantum, Diarrhœa, Dysentery, and the Bowel Troubles of Children of Any Age. Aids Digestion, Regulates the Bowels, Strengthens the Child and Makes TEETHING EASY.

TUSKEGEE, Ala., July 28, 1903.—DR. C. J. MOFFETT—My Dear Sir: Justice to you demands that I should give you my experience with your excellent medicine, TEETHINA. Our little girl, just thirteen months old, has had much trouble teething. Every remedy was exhausted in the shape of prescriptions from family physicians. Her bowels continued to pass off pure blood and burning fever continued for days at a time. Her life was almost despaired of. Her mother determined to try TEETHINA, and in a day or two there was a great change—new life had returned—the bowels were regular, and thanks to TEETHINA, the little babe is now doing well.

Yours, etc., B. W. McIVER, Editor and Proprietor Tuskegee (Ala.) News.

CHAPTER FIVE

By Izola L. Merrifield

Copyright, 1903, by T. C. McClure

Half way between the Crescent ranch and the schoolhouse lay the western border of the Black Hawk range. If Don Easton happened to ride to the ridge of low, ragged buttes above the little valley trail he could catch a glimpse of the new schoolteacher's hat with the violets on it when little Sammie Trent took her to and fro in the buckboard from the ranch to the school.

One day Sammie rode out on the range on his own pinto, Buckeye, and told Don the news.

"We've got the new teacher at our place, Don. She's a Jim Dandy too. Pop let me go to school with the rest of the kids just because she said I was wasting my talent hoeing round. She ain't a real teacher either. She's studying us folks. Jumping Moses, Don, you ought to hear her talk. And she's going to study you pretty soon. You're chapter 5—on herders."

"Is she homely, Sammie?" Don asked gently.

Sammie shut one eye and clucked his tongue hungrily.

"Gimme two crackers and a dried herring and I'll tell," he said.

Don bargained and handed over two crackers with the herring laid between. Sammie munched contentedly. It was a long way from the ranch.

"Her hair's kind of pretty. It don't curl up exactly, but it kinks a little when the wind blows. And it's brown, kind of. And she smiles sweet as anything, and her eyes are blue, kind of, and she's awful gritty. She's learning to ride, and she fell off once and never yowled a bit."

A week after this the buckboard was discarded, and Don saw Sammie ride by on the pinto, while the schoolteacher was on a small lightweight black and white pony. Sometimes she went by alone, as the days passed and her confidence grew. Don would leave the sheep with the dogs and watch for her at sunset, lying face downward in the soft, thick grass on the edge of the buttes. He could see her from the time she passed the cottonwoods that fringed the divide until she turned the corner of Big Butte far down the valley, and beyond the way was clear to the ranch.

There was a secret satisfaction to him in this self imposed sentinel duty over her lonely ride. It was a welcome break in the monotony of his life, and he dreaded the time when the grass and water would give out and he would have to move farther on to new range.

When the spring days came and the wild flowers lay like a royal carpet for the feet of the black and white pony the schoolteacher would dismount and gather them on her way through the valley. Then came a day when the sentinel saw from his post that she was in trouble. The black and white pony had wandered ahead of her, cropping the grass and new clover, when suddenly he pitched forward, one fore leg sinking deeply into a beaver hole. With his heart aflame, Don had gone to the rescue and pulled the pony out. The ankle was sprained, and she limped badly. Flushing beneath his tan, he had told the schoolteacher who he was, just one of the Crescent herders, and had offered her his horse to ride home on. She had accepted thankfully, and Sammie was sent after the lame pony the next day.

"Ain't she a thoroughbred, though?" he asked, chewing on a bit of flag root he had found down near the creek. "Her name's Marjorie Allan."

"When is she coming to study chapter 5?" asked Don carelessly.

"Guess she hasn't got that far yet," returned Sammie seriously. "She's studying flowers and bees and birds and things now."

"Sammie"—the herder's voice was gentle and persuasive—"don't you want a job herding sheep along about sunset?"

"What you got that's better than herrings?" asked Sammie in mild interest.

"A whole nickel a day."

"I'll come tomorrow," said Sammie.

The new arrangement lasted a month. Every afternoon at sunset Sammie herded faithfully, while Don and the schoolteacher rode slowly from the cottonwoods to Big Butte. Then one day Don told him he need not come any more, and his face was grim and hopeless. Sammie looked at him shrewdly while he cracked a switch at a few mosquitoes that were feasting on the pinto's mottled hide.

"She's just a girl, even if she did come from Kansas City and writes books and things," he said pleasantly. "Did she throw you down, Don?"

The herder was silent.

"'Cause you're just a herder?"

"Go home," said the other gently without looking at him, but Sammie saw the clinched hands and he rode away whistling.

Three weeks later there came news to the ranch. The herder on the Black Hawk had moved his sheep eight miles northward toward the Big Horn country, and there were growlings among the cattlemen up there over his encroaching on their territory.

"But isn't the range free?" asked the schoolteacher when Sammie explained matters to her.

"You dassent say so nowadays less 'n you've got a gun to back it up," said Sammie. "Pop thinks Don will get all the trouble he's looking for."

Miss Allan looked at him, her blue eyes grave and anxious.

"What will they do to him?"

"Chase him off and scatter the sheep. Maybe let a little daylight into him if he stops to argue."

"Are we far from him?"

"He's about four or five miles northeast I guess. We could see the smoke if they fired the grass or his wagon," he added encouragingly.

Miss Allan was silent, and Sammie smiled at the pinto's ears. She was getting to chapter 5, he decided, on herders. And he saw, too, that she rode out of her way every day to get a view of the range. And every night at the ranch she asked if news had come from the cattlemen.

But all was quiet until one day the schoolteacher had remained later than usual. Sammie did not question when she turned away from the home path and rode up the hill until they reached a spot where the range lay before them. Far to the northeast a faint line of smoke trailed lazily up to the clouds, and she held her breath as she watched it.

"Sammie," she cried, her hands gripping the pony's bridle tightly, her face paling, "Sammie, what is it?"

"Just smoke," said Sammie shortly, knowing what lay behind the appeal. "I guess we can make it in an hour. Less 'n they've fixed him already."

But she rode on beside him fearlessly until they had passed scattered, frightened groups of what sheep were left, and halted beside the smoking ruins of the herder's wagon. It was she who found him first, lying unconscious a dozen yards from the wagon. There was a wound in his forehead. While Sammie stood with wide, scared eyes, she told him to run to the creek and bring water, then to ride on to the ranch for help.

With the water Sammie had brought her she bathed the wound and kept his parched lips moist, and the black and white pony moved up and down like a restless shadow between her and the charred wagon.

Once he opened his eyes and stared up at her in wonder, and she laid her hand lightly on his hot forehead.

"I am sorry," she said softly, and the pony moved out of hearing as he answered her.

A little after moon rise there came the thud of hoofs on the ground and the lone vigil was ended. Next morning Sammie's freckled face looked cautiously in the open window of the room at the ranch where the herder lay.

"Hello, Don," he said cheerfully. "Ain't she got grit, though? Ain't she a thoroughbred?"

Don smiled at him in proud assent, and moved his bandaged head in a half nod.

"How's chapter 5—on herders?" asked Sammie in a whisper.

"All done," said Don, his eyes bright with happiness. "Next one's on weddings, but there's a herder in it, too, and she's going to take the leading part."

From Despondency to Health.

North Alton, Ill. June 9, 1903.

A few months ago my health seemed to break down altogether. I had a complete collapse and nature refused to sustain me any longer. I lost my appetite, could not sleep and was in the very slough of despondency, which was greatly aggravated at the menstrual period. Our physician was unable to give me anything which was of the least benefit to me and I kept getting worse and was very nervous and hysterical.

A friend who had used Wine of Cardui suggested that I try it. So I sent for some and within two days after I started to use it I felt a great deal better. I could sleep at night and gradually the nervousness passed away. I became strong and had no pain at the period.

I am now enjoying the best of health due to the merits of Wine of Cardui for which I am deeply grateful.

Catharine E. Mallory

WINE of CARDUI

There are hundreds of women in this city today who need Wine of Cardui and they would not hesitate a moment to take it if they only knew what a record it has made. Day after day and year after year letters like this one, praising Wine of Cardui, have appeared in the papers of this land and hundreds of thousands of sick women have secured relief from painful and irregular menstruation, leucorrhœa and bearing down pains by following the advice given.

Can any fair minded woman refuse to take the testimony of ten thousand of her sisters who have suffered just as she and then have been completely cured? Who can fairly say "Wine of Cardui will not help me" with such facts before her? Wine of Cardui is a pure vegetable extract that is so mild and simple in nature that a girl can take it with benefit when threatened with early menstrual disorders. Older women are cured of the more serious menstrual troubles, bearing down pains and leucorrhœa. For the troubles at childbirth and for middle-aged women at the change of life—Wine of Cardui meets every crisis in the life of a woman.

WEDNESDAY MORNING, SEPT. 16.

ALASKA BOUNDARY QUESTION

First Day of Oral Arguments Before the Commission—The Canadian View of the Important Controversy.

By Cable to the Morning Star.

LONDON, Sept. 15.—The first day of the oral arguments in the Alaskan boundary question was taken up by Attorney General Finley, who partially presented the Canadian view of this important controversy. When the tribunal adjourned at a few minutes after 4 o'clock this afternoon until to-morrow morning, the Canadians were gratified at scoring what they believed to be the first good point. During the afternoon session the attorney general sought to establish the position of Portland channel and fix the entrance thereto. He interpreted the words "Ala Hauteur de," in the Russo British correspondence leading to the signature of the treaty of 1825, not as showing that the boundary lies "on the same parallel" as the lower end of Prince of Wales island, as claimed by the United States, but "off of," as asserted by Canada. The effect of this would be to fix the line at 54 degrees forty-five minutes, as claimed by Canada. Chief Justice Alverstone agreed with Attorney General Finlay.

When American counsel have the opportunity to speak they say they will show that the Canadians themselves have given various interpretations of the phrase and they are inclined to minimize the importance of Lord Alverstone's statement.

COUNTERFEITERS CAPTURED.

Three Men Arrested in Memphis, Tenn., After a Long Chase by Secret Service Agents.

By Telegraph to the Morning Star.

WASHINGTON, Sept. 15. — Chief Wilkie, of the secret service, to-day received a telegram announcing the arrest at Memphis, Tenn., last night, of Irvine Trolley and Luke Ray, two ex-convicts, together with a man named Willis, all charged with counterfeiting, in raising notes of low to higher denominations.

The men were captured after a chase lasting over a month and in which one man was killed. About August first the secret service received information from a number of points in Kentucky and Tennessee that three colored men were passing raised notes, principally at county fairs. Secret service agents started on their trail and finally located them on a train bound for Cave City, Ky. The officials telegraphed the agent of the railroad company at that point who summoned several citizens and undertook to arrest the party. A fight followed in which a man named Sheppard was killed. The negroes made their escape and went to Chicago and from there were followed south, being located last night in a saloon in Memphis.

CONDITION OF COTTON.

Further Deterioration Reported by the Weather Bureau—Drought.

By Telegraph to the Morning Star.

WASHINGON, September 15.—The Weather Bureau's weekly report of crop conditions says:

"Further deterioration in the condition of cotton is very generally reported throughout the cotton belt. Shedding and rust are extensive, and quite general complaints of premature opening are received from the central and eastern districts. The greater part of the cotton belt is now suffering from drought and boll worms are destructive in localities. Boll weevil continue to destroy nearly all new forms in the southwestern, central and eastern portions of the cotton area in Texas. Cotton is opening fast in all districts, and picking is progressing rapidly."

STRANGLED TO DEATH.

C. H. Wegner, a Piano Tuner, Committed Suicide at Richmond, Va.

By Telegraph to the Morning Star.

RICHMOND, VA., Sept. 15.—C. H. Wegner, a well known piano tuner here, was found dead in his apartment to-night, having taken his own life. He had fastened one end of a hempen cord to the top of a door, placed his neck in a noose at the other end and strangled himself to death, being found upon his knees on the floor.

Mr. Wegner was a native of Danzig, Prussia, where he was born Oct. 3, 1837. He had been in bad health for years, and in providing for an autopsy on his remains he said he wanted the medical students to find how a man could live twenty years with a stomach utterly incapable of digesting the food put into it. The dead man had no family.

VESSEL IN DISTRESS.

British Steamer Traveller Damaged in Storm Off Coast of Georgia.

By Telegraph to the Morning Star.

NEWPORT NEWS, VA., Sept 15.—The British steamship Traveller limped into port this morning in distress, after encountering the terrific storm which destroyed the British steamship Inchulva.

The Traveller is now lying at anchor in the stream but will proceed to the shipyard for repairs. She is bound from Galveston to Liverpool with miscellaneous cargo. When the storm struck the Traveller she was off the coast of Georgia. The machinery is partly disabled and the steering gear is not working properly. The ship was able to come here under her own steam.

It is estimated that this year's export of cotton from British West Africa will amount to 1,800 tons.

THE HURRICANE IN SOUTHERN FLORIDA

Connection South of Tampa Is Still Cut Off and No Reports Received.

DAMAGE IN MIDDLE FLORIDA.

Rumor That Punta Rassa Has Been Destroyed—The Turpentine Industry and Orange Groves Suffered. Wrecks on the Coast.

By Telegraph to the Morning Star.

JACKSONVILLE, FLA., Sept. 15.—Further news of the storm continues to arrive, though a large part of the storm-swept area has not been heard from. Wires are still down and it is impossible to get trains through on account of washouts.

Three negroes were killed by falling timbers at the camp of the Cummer Lumber Company near Gainesville, and another negro was seriously hurt and will probably die. A dwelling and several cottages were wrecked.

At Mulberry the phosphate plants are reported as greatly damaged. They have been compelled to shut down until the water subsides. At Bartow the roof was blown from the Bartow House, and from the residence of the president of the South Florida Military College.

A number of mules were killed by the falling of an old shed at Phosphoria.

From all parts of the State great damage to the turpentine industry is reported.

Wire connection was made to night with Arcadia, in Desoto county, about forty miles further south than Tampa. A special from that place to the *Times-Union* says:

"Reports are slowly coming in of damage done by the hurricane Friday night and Saturday. No trains are running through south Zolfao. Damage to the orange groves is very great. Orange men estimate the loss to the crop from 25 to 40 per cent. The loss to the county by damage to the bridges and roads will amount to ten thousand dollars. Many orange trees were torn to pieces, the fruit splitting and dropping on the ground. The roads are impassable, the farmers having difficulty in getting food supplies. Many houses were blown down, but the only loss of life is Hugh Morton, who was drowned at Wilder's saw mill.

Storm in Alabama.

MONTGOMERY, ALA., Sept. 15.—Specials from Opelika, Eufaula, Ozark, Troy and other South Alabama towns tell of damage done by the storm. Houses were unroofed, trees uprooted and the cotton crop damaged. So far no lives have been reported lost.

Many Wrecks.

HAVANA, Sept. 15.—The captain of the steamer Vigilancia, from New York, September 10th, which arrived here yesterday, reports that the vessel sighted many wrecks on the Florida coast, one of them being ten miles north of Jupiter, where a schooner has been wrecked. Her crew is ashore. Further south a Standard Oil Company barge is stranded and thirty miles south a Spanish steamer from Bilbao, is broken in two. Still further south a four-masted schooner is ashore.

JACKSONVILLE, FLA., Sept. 15.—All connection with the west coast of Florida, south of Tampa, Arcadia, is still cut off and no report has been received from any of the towns of that section beyond the rumor that Punta Rassa had been destroyed. The damage in middle Florida is probably much less than was at first believed, and was principally inflicted by rain which injured the crops and caused many washouts on the railroads.

THE FIFTEENTH AMENDMENT.

Senator Carmack Proposes to Introduce a Bill for Its Repeal at the Next Session of Congress.

By Telegraph to the Morning Star.

CHICAGO, Sept. 15.—A dispatch to the *Tribune*, from Memphis, Tenn., says:

United States Senator Carmack explained last night that his purpose in proposing to introduce a bill at the next session of Congress for the repeal of the fifteenth amendment, thus disfranchising the negro, is simply to open up a discussion which will contribute to a solution of the race problem.

To Senator Carmack's mind the surest plan of solving the negro question as it affects the white race, both socially and politically, lies in the negro's elimination from politics. Should the fifteenth amendment be repealed, the question of treating with the negro would be left to the States.

Another view entertained by Senator Carmack is for the separation of the races. But how to proceed, or how long it will take, he does not attempt to say. He believes, however, that the races would be better conditioned if they were separated. He believes the black race is a failure, that it owes what little it has achieved to its association with the white race.

As to the enfranchisement of the negro immediately after the war between the States, the senator regards that as the mistake for which the repeal of the fifteenth amendment would be only partial reparation.

CYCLONE IN GEORGIA

Caused Damage at Moultrie to Amount of Abont $30,000.

By Telegraph to the Morning Star.

MACON, GA., Sept. 15.—The *Telegraph's* dispatch from Moultrie, Ga., says a cyclone from the southwest struck the northern part of the town at 2 o'clock this morning and caused damage to the amount of about $30,000. Three churches, including the Primitive Baptist which was valued at $10,000, were practically destroyed. A pine products plant and a cotton seed oil mill were wrecked and a score or more of small houses were blown down. There was no loss of life. It is believed the storm spent itself in the vicinity.

ALLEGED WHITECAPPERS.

Seven Men Arrested and Now in Jail Awaiting a Hearing.

By Telegraph to the Morning Star.

TROY, ALA., Sept. 15.—John Green, Jesse Green, James Sanders, A. V. Norton, Richard Mann, Wash Green and Buford McCall, alleged white cappers were brought before United States Commissioner Tutwiler to-day. Their hearing was set for September 17, and they are now in jail. It is alleged that these are members of the gang which for some time has been terrorizing negroes in Barbour county, warning them to leave under penalty of death.

THE POSTAL FRAUDS INVESTIGATIONS.

Grand Jury Examined Several Witnesses. Indictment Expected of Former Law Official of the Department.

By Telegraph to the Morning Star.

WASHINGTON, Sept. 15.—The Federal grand jury resumed its consideration of postoffice cases to-day, but did not progress sufficiently to report any indictments. Several witnesses were examined. One of the first indictments is expected to be that of a former law official of the department. The grand jury also has been deliberating over the case of a former assistant attorney general, who at one time wag postmaster general, and considerable evidence has been submitted by postoffice inspectors and others. This case is connected with that of a former law clerk.

Manager Bowman, of the Southern Mutual Investment Association, and other witnesses to-day testified before the grand jury in these cases. It is expected that the grand jury will take early action in both cases. There are in the neighborhood of a half dozen other indictments expected.

Charles H. Hobb, the assistant attorney general for the Postoffice Department, has decided to continue permanently in that office instead of returning to the department of justice at the completion of the postoffice investigation.

Postmaster General Payne to-day admitted that the resignation of Geo. C. Christiancy, the former law clerk of the department, was submitted some weeks ago, but that action upon it had been deferred pending the investigation of the affairs of that office.

COLORADO STRIKE TROUBLE.

Rifles and Ammunition Distributed Among the Troops on Duty at Cripple Creek. Meeting of County Officials.

By Telegraph to the Morning Star.

CRIPPLE CREEK, COL., Sept. 15.—A consignment of 1,000 Krag Jorgensen rifles, from the United States government, arrived in camp to-day and were immediately distributed among the troops on duty here. Besides the new rifles, 60,000 rounds of ammunition were also received. This is the first new equipment to be sent to Colorado under the Dick bill.

A meeting of county officials was held to-day for the purpose of trying to devise means for ascertaining just how far the military authorities can go in the arrest of citizens without warrants of law. At the conclusion of the meeting it was announcing that no action so far had been decided upon. It is semi-officially given out that some of the best attorneys in the United States are to employed to get the matter quickly before the United States Supreme Court.

County Commissioner Patrick J. Lynch and Justice of the Peace W. P. Reilly, who were arrested by the military last night and subsequently released to-night, announced their determination to bring civil suits for $100,000 damages for false imprisonment against Governor Peabody, Generals Bell and Chase and others connected with their arrest, whom they will charge with conspiracy. Lynch and Reilly were charged with having criticised acts of the militia and counselled miners not to return. Former Attorney General Eugene Engley, counsel for four union leaders who are held prisoners in the military guard house, and Attorney John H. Murphy, of the Western Federation of Miners, consulted together to-day with reference to protection of the union miners from alleged aggressions of the militia. After the conference Mr. Murphy said:

"There is nothing in the constitution of this State which can uphold the proceedings of the militia since they have come into the district. Under the constitution the militia of the State is given a very limited scope. Even now General Bell is amenable to the civil law for his actions."

NAVY'S SUBMARINE CRAFT.

Torpedoing the Torpedo Boat Craven—A Pretty Exhibition of Mimic Warfare at Newport, R. I.

By Telegraph to the Morning Star.

NEWPORT, R. I., Sept. 18.—A pretty exhibition of mimic warfare, important as illustrating the effectiveness of the navy's submarine craft, was given to-day off Brenton's reef lightship, when the submarine torpedo boat Adder succeeded in torpedoing the torpedo boat Craven. So stealthily did the Adder creep up on the Craven that the Wooden torpedo was successfully fired and struck the Craven a smart blow below the water line amidships before the crew on the floating warship could man the gun or the torpedo tubes.

The Craven left the torpedo station during the forenoon and running down the harbor rested at Brenton's reef lightship, awaiting the attack. The Adder, instead of following immediately, waited an hour in order to get the crew of the Craven off their guard.

As soon as the Adder was cleared, the submarine boat plunged beneath surface and remained for forty-five minutes, during which time officers and men enjoyed lunch without inconvenience. On getting outside the harbor the Adder was once more sent to the surface, but only her conning tower was exposed. The Craven was sighted a short distance outside the lightship riding unconcernedly on an easy swell. The Adder again plunged, and when within 300 yards of the Craven, a wooden torpedo, the shape and size of a regular projectile, was fired. The shot was a good one and the torpedo struck the Craven amidships with considerable perceptible jar to the boat.

STEAMER DISABLED.

Encountered the Hurricane Off the Coast of Florida Last Friday.

By Telegraph to the Morning Star.

NEW YORK, Sept. 15.—The Munson Line steamer Olinda arrived in port to-day from Havana and other Cuban ports in a disabled condition.

On September 11th the Olinda encountered the hurricane off the coast of Florida. Tremendous seas swept the decks repeatedly, carried away a lifeboat and disabled the steering gear. After considerable difficulty control of the steamer by the hand gear was gained, by this also became partly disabled. Captain Hansen estimated the force of the wind at ninety miles a hour at its height. The Olinda after the storm was steered with the partly damaged hand-steering gear.

Shortly after his arrival in Chicago yesterday Sir Thomas Lipton was taken ill with indigestion in his apartments at the Auditorium Annex and it was found necessary to declare off all plans for his entertainment. The indisposition is not serious.

TWENTY THOUSAND BULGARIAN TROOPS

Reserves of Three Divisions on the Turkish Frontier Called to the Colors.

MORE TURKISH ATROCITIES.

Three Villages Burned and Over One Hundred Families Massacreed—Russian Monastery Sacked and Monks Murdered—Insurrection.

By Cable to the Morning Star.

SOFIA, BULGARIA, September 15.—Twenty thousand Bulgarian reserves, belonging to three divisions on the Turkish frontier have been called to the colors.

Replying to notes of the Turkish representative here, in which it was alleged that the insurrection in Macedonia was the work of Bulgarian bands who had crossed the frontier, the Bulgarian government on Saturday last replied, refuted the accusations, reviewed the history of the insurrection and claimed that the outbreak was the direct result of the existing form of government in Macedonia, which had forced the youth of the country to flee abroad and gradually organize the insurrection. Bulgaria also declined all responsibility for the events at Adrianopole, which it is declared are due to the persecution of the Bulgarian population. Finally, Bulgaria stated that the Turkish government was prolonging a situation filled with perils to the principality, and pointing out that there was danger of a catastrophe disastrous to both countries.

Prince Ferdinand will return here to-morrow.

The revolutionary headquarters have received news of a terrible situation at Losengrad. The whole district is filled with Turkish and Albanian troops and Bashi-Bazouks. Twelve villages have been burned and over 100 families have been massacred. Many of the women and girls captured have been sent to various harems. About 400 widows and orphans have arrived at the frontier village of Tekendje from Losengrad.

All the Bulgarian prisoners in the town jail at Losengrad have been killed by Mussulman prisoners, aided by the prison guards.

Italian Fleet Concentrating.

LONDON, Sept. 15.—A news agency dispatch from Rome says that the Italian fleet which has been concentrating off the coast of Sicily, is held in readiness to leave for Turkish waters at a few hours notice.

BERLIN, Sept. 15.—A dispatch to the *Tageblatt*, from Constantinople, reports that the Russian monastery at Jerusalem has been sacked by a Mohammedan mob and that all of the monks there were murdered.

SALONICA, Sept. 15.—A general insurrection in the vilayet of Salonica, east of the Vardar river, is announced to have begun yesterday. The region is divided into eight districts, each commanded by a Bulgarian officer. General Zontcheff, president of the Macedonian committee, is the commander-in-chief.

Bulgaria and the Powers.

SOFIA, Sept. 15—Premier Petroff was interviewed to-day by the correspondent of the Associated Press here on the reasons which induced the Bulgarian government to issue yesterday's note to the powers. He said:

"It has been from the first plainly evident that the policy of Turkey was to hinder the development of the Bulgarian race in Macedonia, which was the strongest national element there. With this end in view the Turks proceeded to devastate the country and kill the Bulgarian Christians, driving the survivors into the mountains and forests, where they would either perish of hunger or else cross the Bulgarian frontier and become a burden to the Bulgarian nation. In the meanwhile the powers paid not the slightest attention to the Bulgarian note of June 29th, but rather encouraged the Turks, who adopted the most severe measures to suppress the outbreak. The Bulgarian government is now compelled to protect not only Bulgaria itself but also the Bulgarian element in Macedonia.

"Turkey has now concentrated three hundred thousand troops in Macedonia, only about 25,000 of whom are engaged in the suppression of the revolt. There is no attempt to fight the insurgents, but the troops attack innocent women and children. The Bulgarian government is forced to perceive in this excessive mobilization a clear sign of Turkey's desire, after she has succeeded in suppressing the out break in Macedonia, to attack Bulgaria and exterminate the Bulgarian race. All of the latest information from Macedonia and Constantinople confirms this view.

"The latest news from Constantinople says the Porte is mobilizing the Mustahfuz, or last line of reserves, including men of about fifty years of age.

"Confronted by such conditions Bulgaria is forced to the conviction that Turkey intends to attack her, and the Sofia government has taken this last step of asking the powers to intervene. Otherwise Bulgaria must take measures for her own protection."

Mobilization of Reserves.

SOFIA, BULGARIA, September 15.—No important step is likely to be taken at the present critical juncture, pending the return to the capital of Prince Ferdinand and a reply from the powers or some intimation from them in response to Bulgaria's note.

The air here is filled with rumors of mobilization. It is alleged that the first three divisions of the army, having their centres at Philippopolis, Slivnac and Sofia, have been called out. In official circles it is declared, however, that the only step actually decided upon is the summoning to the colors of the first three divisions who retired from the army during the last three years. This will give a force of some 10,000 men, who will be chiefly employed in strengthening the troops along the frontier.

CONSTANTINOPLE, Sept. 15.—The Russian and Austrian embassies have made most serious representations to the Porte regarding the excesses of the Turkish troops, especially the Albanians, in the vilayets of Monastir and Adrianople. The ring leader of the Albanian battalion at Prizen, which was responsible for much of the excesses and which has been sent back for insubordination, will be banished.

DISASTROUS FIRE.

Plant of the Rasin Monumental Fertilizer Co. Burned—Loss $500,000.

By Telegraph to the Morning Star.

BALTIMORE, Sept. 15.—Fire to-day destroyed the buildings, plant and stock of the Rasin Monumental Fertilizer Company, at Fairfield, Anne Arundel county. The loss is estimated at $500,000. The plant was insured for $323,000 and the stock for $27,000. Fifteen buildings scattered over twenty acres of land were consumed. Two hundred and fifty men were thrown out of work by the fire.

L. C. LUKE

Could Not Sleep

Rochelle Ave. and Bellevue St., Cincinnati, O., Aug. 1903

MR. LUKE SAYS: "Some years ago I met with an accident which left my nerves in an awful condition. Could not sleep, could not rest. I tried five doctors but could get no relief. Was getting worse all the time, when a friend of mine recommended Paine's Celery Compound as being the best remedy I could take for nervousness and sleeplessness. I got a bottle and began to feel better from the very start. My nerves are strengthened so that I am now able to sleep as I used to before the accident. I have recommended it to several of my friends and it has always done them good. I keep a bottle in my house at all times."

Paine's Celery Compound Cured Him.

NEW YORK CITY PRIMARIES.

Passed Off More Smoothly Than Had Been Expected—A Close Fight in Some of the Districts.

By Telegraph to the Morning Star.

NEW YORK, September 15.—The primaries, both Republican and Democratic, to-day passed off much more smoothly than had been expected. The closeness of some of the district fights was remarkable. This was true in four of the Democratic fights. They were the First district, where Daniel E. Finn had to fight for victory against Alderman Michael Kennedy; in the Ninth district, where the hottest fight in the city was waged unsuccessfully by William S. Devery against Frank J. Goodwin, who won by 404 votes; in the Nineteenth, where former Tombs Warden James J. Hagan wrested the leadership from former Police Commissioner John B. Sexton, and in the Twenty ninth where the result between Joseph F. Mulqueen and Thomas E. Rush appeared to be in doubt.

The Republican leaders who had fights on their hands in three instances met with defeat, one, that of Henry Birrell, the leader of the Twenty-fifth, being an overwhelming victory for Alderman Herbert A. Parsons, the aspirant. Former Police Inspector Thomas F. McAvoy, the leader of the Twenty-third district, after a picturesque battle, defeated the contestant, John J. Dooley, whose name was instrumental in reviving a song popular during last year's campaign.

The voting during the day was remarkably free from trouble. There were not more than fifty arrests during the entire seven hours of voting.

EXCLUSIVELY FOR NEGROES.

Mr. Carnegie to be Asked to Establish Free Libraries in Southern Cities

By Telegraph to the Morning Star.

CHATTANOOGA, TENN., Sept. 15.—Andrew Carnegie is to be asked to establish free libraries in Chattanooga and several other Southern cities for the exclusive use of negroes. Frank K. Wheaton, a negro attorney of New York, and other influential men of his race, have already sent a memorial to Mr. Carnegie suggesting the idea and a delegation will call upon him.

It is pointed out that the negroes of Chattanooga, Atlanta, Knoxville and other cities in which Mr. Carnegie is establishing libraries, will be barred from the privileges of the institutions. Mr. Carnegie's recent donation to Tuskegee Institute showed that he is interested in the colored people of the South.

LYNCHING IN MISSISSIPPI.

Negro Murderer Captured by a Mob and Shot to Death.

By Telegraph to the Morning Star.

CENTREVILLE, MISS., Sept. 15.—William Williams, a negro, was lynched on Main street here to-day by a mob of several hundred people. Williams, who was a labor agent, has been here several days employing negroes for contractors in other sections of the State, and it is alleged that he enticed several employes to leave. James H. Germany remonstrated with him about his conduct. A quarrel followed and Williams drew a revolver and shot Germany. The negro attempted to escape, but a mob was quickly on his heels and the negro was captured and shot to death.

HAND BLOWN OFF.

Four Young Men Injured by Explosion of a One Pound Bomb.

By Telegraph to the Morning Star.

NEW YORK, Sept. 15.—By the explosion of a one-pound bomb to-night at 69th street and West End avenue, four young men were injured, one of them having his hand blown off. Arthur Rogers whose hand was shattered, was with a number of other young fellows and had the bomb—a big firework. Rogers tried to remove the cap of the bomb and his initial efforts being unsuccessful he hammered the firework against an iron railing. Then it exploded. Rogers was taken to Roosevelt hospital. His companions were not seriously injured.

WARM WIRELETS.

The department store of Wolf & Marx, at San Antonio, Tex., burned, entailing a loss of $300,000. Schulz's roof garden was also destroyed. The loss is partially covered by insurance.

In New York city yesterday, for assaulting Patrick O'Neil, walking delegate of the plasterers' union, Sam Parks was fined $50, with the alternative of serving fifteen days. The fine was paid.

Eduardo Conde and Leonidas Guillot, two Socialists, who spoke in a recent meeting of the American Federation of labor, at San Juan, P. R., were put on trial yesterday for insulting the American flag and threatening the life of Governor Hunt. Their speeches teemed with abuse of the government.

Two resolutions were adopted at the annual convention of the National Loom Fixers Association at Boston, one of which favored a shorter work day for women, and children employed in factories and the other against employing women and children on overtime work.

A special from Sault Ste Marie, Mich., says a fire which originated in Klossers candy store there last night and which was still burning, had destroyed an entire block of stores in the heart of the business district. The damage already done amounted to about $700,000.

OUR INSTINCT TO CHEW.

It Manifests Itself In Numerous and Curious Ways.

Seeing that the maxillary apparatus of man has for long ages past been put to vigorous use, it is not surprising that the need to exercise it should express itself as a powerful instinct. This instinct manifests itself in many and curious ways. During the early months of life the natural function of feeding at the breast provides the infant's jaws, tongue and lips with all the needful exercise. This bottle feeding fails to do, and we frequently find bottle fed children seeking to satisfy the natural instinct by sucking their thumbs, fingers or any convenient object at hand.

The teeth are a provision for biting hard foods, but even before they actually appear we find the child seeking to exercise his toothless gums on any hard substance he can lay hold of, and there can be no doubt that exercise of this kind tends to facilitate the eruption of the teeth, a truth indeed recognized universally, whether by the primitive mother who strings the tooth of some wild animal round the neck of her infant or the up to date parent who provides her child with a bejeweled ivory or coral bauble.

When the teeth have erupted, the masticatory instinct finds among primitive peoples abundant satisfaction in the chewing of the coarse, hard foods which constitute their dietary; but among us moderns, subsisting, as we do, mainly on soft foods, affording but little exercise for the masticatory apparatus, it does not find its proper expression, and thus tends to die out. Nevertheless it dies a hard death and long continues to assert itself. Witness the tendency of children to bite their pencils and penholders. I have known a child to gnaw through a bone penholder much in the same way as a carnivorous animal gnaws at a bone.

This instinct to chew for chewing's sake manifests itself all over the world. In our own country not only do children bite pencils and penholders, but they will chew small pieces of india rubber for hours together. The practice of gum chewing, so common among our American cousins, evidently comes down from faroff times, for the primitive Australians chew several kinds of gum, attributing to them nutrient qualities, and the Patagonians are said to keep their teeth white and clean by chewing matri, a gum which exudes from the incense bush.—Lancet.
